Subj: Claim for dependents transportation from PORTLAND, ORE.,
to NEW YORK, N. Y.

1. AlNav 107 of 24 May 1945 provides as follows: "In connection with travel of dependents at own expense under Public Laws Numbers 745 and 193, Comptroller General's Decision of 18 May 1945 restricts reimbursement to expenses actually incurred not to exceed what it would have cost the Government to have furnished authorized transportation. No further payments will be made on such claims unless mode of travel is shown. Receipts or pullman stubs for rail accommodations other than coach must be furnished if available. Travel by privately owned conveyance reimbursable on itemized account of travel expenses directly incident to the operation of such conveyance with receipts if available. SecNav letter of 23 Dec. 43, page 77 of Navy Dept. Bulletin, Jan-June 44 modified accordingly. Attention invited foregoing applies only repeat only to travel claims under above mentioned Laws. Detailed instructions will follow to claimants affected."

2. Prior to receiving the above mentioned decision claims coming under the provisions of Public Laws 745 and 193 have been paid on the basis of the commercial cost of first class rail transportation and authorized pullman accommodations without regard to what was actually expended by the dependents in performing the travel. Remedial legislation to permit continuing payments on the commercial cost basis is being sought from the Congress.

3. Since subject claim comes under the provisions of Public Law 193 as contained in paragraph 3 of SecNav letter of 23 Dec. 43, the claim will be retained in this Bureau pending action on the remedial legislation.

4. Should you desire, however, to resubmit your claim in accordance with the above quoted AlNav, the claim now being held in this Bureau will be returned upon receipt of an official request from you to that effect.

2. It is understood you have sufficient funds to defray your expenses on leave, including round-trip transportation or necessary funds therefor. Each case of transportation obtained from recruiting stations, or other naval activities, by personnel on leave, will be investigated, and where no urgent necessity will be apparent in applying for transportation request, disciplinary action will be taken.

PRESENT HISTORY OF CASE of Monterey, Calif.

Admitted from Naval Civil Affairs Staging Area, Presidio/ Date 11 April 1945.

Diagnosis ULCER, DUODENUM #371 Key letter Specialty letter

Summary of case history: This officer patient was admitted to the sick list at Naval Affairs Staging Area, Presidio of Monterey, Monterey, Calif., on 10 Apr 1945, with Ulcer, Duodenum. He was transferred to this hospital on the same day.

Review of the current health record reveals that on 15 July 1943, he was hospitalized at USNH, San Diego, Calif., for epigastric pain and vomiting. X-ray examination at the time revealed a duodenal ulcer. The diagnosis was changed to Ulcer, Duodenum, on 24 July 1943, and he was returned to duty on 8 Oct 1943.

On admission here he complained of epigastric distress with a feeling of fullness and of nausea and vomiting, which was relieved by food. The physical examination was essentially negative, as was the laboratory work. Gastro-intestinal examination by x-ray on 19 May 1945, and 16 June 1945, revealed a duodenal ulcer with slight deformity of the duodenal cap. Treatment has consisted of bland diet, belladonna, and phenobarbital with continuation of symptoms. The gastro-intestinal series on 31 Aug 1945, was reported as: "Esophagus and stomach negative. Duodenal ulcer with deformity of duodenal cap. Deformity has not increased since the last examination. There is some scarring of the mucosa but there is no demonstrable crater. No obstruction."

According to the history obtained from the patient his symptoms first began in April 1943, at which time he held his present commissioned rank of Lt. There is nothing in the current health record or history to rebut the presumption of soundness prior to that time.

In view of the recurrence of a duodenal ulcer, and its persistence as demonstrated by x-ray evidence while under treatment, it is the opinion of the Board that this officer is not physically fit to perform all the duties of his rank, and that he should be ordered to appear before a retiring board. Maximum benefits of hospitaliza-

home in New York City.

3. The mailing address on subject claim

1. Reference (a) and enclosures are herewith returned for further consideration.

2. Since submitting this request a new set of orders have been received detailing me to duty under treatment at the US Naval Hospital, Oakland, Calif. These orders have been attached to the file enclosed.

3. I was more than five months under the Monterey orders as enclosed and it is my understanding that such a length of time entitles one to dependents transportation. From 15 Feb. 45 to 4 Sept. 45.

4. My first permanent duty station before Princeton was the USS Algol, (AKA54). When I departed the continental limits of the United States I sent my dependents home. Transportation for dependents is therefore requested from home, not from a temporary duty station.

Encl: (A) Pamphlet "Your Place in the Postwar Naval Reserve."

1. Receipt of reference (a) is hereby acknowledged.
2. Your resignation from the Naval Reserve, in which you have served so honorably, has been received with regret. It has come to the Bureau's attention that in a few cases Naval Reserve officers have resigned and shortly thereafter applied for reinstatement. This indicates that some Reserve officers do not clearly understand their status in the Volunteer Reserve. It is hoped that enclosure (A) describing the general plans for the peacetime Naval Reserve will be of interest to you.
3. In the planned peacetime Naval Reserve you will not be called to active duty except at your own request or except in time of national emergency or war when rapid mobilization is required.
4. All officers of the Naval Reserve upon return to inactive duty automatically become a part of the Volunteer Reserve unless they apply for and are approved for transfer to the Organized Reserve. Members of the Volunteer Reserve will not be obligated for training, either in the weekly classes or on cruises, as required for the Organized Reserve. On the other hand they can maintain their rank and may qualify for further promotion by voluntarily fulfilling the requirements prescribed for their rank and classification. Membership in the Volunteer Reserve counts for longevity pay purposes in the event of any future return to active or training duty.
5. Your particular attention is invited to the fact that, should you resign your commission in the U. S. Naval Reserve, such action would deprive you from any further benefits under the jurisdiction of the Navy Department.

Mr. LaFayette R. Hubbard

No. Hollywood, California

Dear Mr. Hubbard:

A report of your examination on December 11, 1947, has been carefully considered, together with all other evidence in your case file. It has been determined that your previous rating of 10% disabled due to your duodenal ulcer condition should be confirmed and continued.

Your right shoulder condition was held 10% disabling. Your arthritis condition of the right hip, spine, and ankles was held to be 10% disabling from February 17, 1946 to December 10, 1947, and 20% disabling from December 11, 1947.

Your inflammation of the eyes condition was held to be 10% disabling. Your condition of astigmatism is not a disability for which compensation can be paid.

The condition of sprained left knee claimed by you is not shown by the evidence of record.

Your combined rating is 30% disabled from February 17, 1946 to December 10, 1947, and 40% disabled from December 11, 1947. Your award has been adjusted to pay you at the rate of \$34.50 monthly from February 17, 1946 to August 31, 1946; \$41.40 monthly from September 1, 1946 to December 10, 1947; and \$55.20 monthly from December 11, 1947. You will receive the increased amount in due course, less prior payments.

Inasmuch as increased benefits have been granted, it is presumed that you do not wish further action on your appeal.

If no reply is received from you within thirty days from the date of this letter stating that you are still dissatisfied with your rating, your appeal will be considered as abandoned, and no further action will be taken.

Mr. LaFayette R. Hubbard

C 7 017 422

If you have no further evidence to submit, but have substantial reason to believe that the decision is not in accordance with the law and the facts in your case, you may appeal to the Administrator of Veterans Affairs at any time within one year from the date of this letter. If you wish to appeal, you should so inform this office, and you will be furnished with VA Form P-9 for that purpose.

Very truly yours,

Gentlemen;

Please send me the proper forms for my appearance before a board of medical survey for retirement purposes.

The Veterans Administration advises me of this procedure and states that I must have the forms from you in order that I may make them out and submit them as your routine requires.

You may require the following data:

LaFayette Ronald HUBBARD
Lieutenant, D, USNR, (inactive)
File No. 113392
Entered on Active Duty Nov. 24, 1941
Separated to inactive duty February 16, 1946
Born Tilden, Nebr. March 13, 1911

I enclose a photograph of my discharge orders from the hospital and separation from the Navy.

Also enclosed is my letter from the Veteran's Administration awarding me 40% disability for compensation purposes (in photostat form) as of February 26, 1948.

I have also enclosed airmail envelope, stamped and self-addressed to expedite receipt of your forms and anything you can do to help me in this will be greatly appreciated.

Yours very truly,

Subj: Retirement.

Ref.: (a) Your letter of 10 March 1948
(b) Section 302, Servicemen's Readjustment Act of 1944, as amended.

1. By reference (a) you request retirement for physical disability.
2. By reference (b) the Secretary of the Navy is directed to establish boards to review, at the request of any officer retired or released from active service, without pay, for physical disability pursuant to the decision of a retiring board or a board of medical survey, the findings and decisions of such board for the purpose of further adjudicating his right to retirement for physical disability. In carrying out its duties under this section such board of review shall have the same powers as exercised by the board whose findings and decisions are being reviewed.
3. To warrant retirement for physical disability an officer of the Navy or Naval Reserve must be permanently incapacitated for active naval service. It is to be expected that many of the officers who served in the Reserve components during the war will have aggravated a previously existing defect to a disabling degree or may have suffered a disease or injury in the service which caused a partial disability even to the point of providing a more or less serious handicap in the resumption of normal civilian activities. These officers are eligible to receive compensation from the Veterans' Administration; this was the obvious intent of Congress in providing for such compensation. An officer may not be considered for physical disability retirement, however, unless his physical incapacity is the result of an incident of the service and such that he is incapable of performing his duties at all, or in other words, he must be unable to perform them as to reasonably fulfill the purpose of his employment.

4. A review of your record indicates that final action on the Board of Medical Survey which considered your case on 10 September 1945 found you to be fit for duty ashore. You were examined as an incident to your separation processing on 6 December 1945 and again found physically qualified, and in view thereof it does not appear that you have incurred incapacity for the naval service while serving on active duty in the Naval Reserve.

5. Despite the foregoing, however, you are legally entitled to a review of the Medical Survey Board proceedings in your case under the provisions of reference (b) to further determine your right to retirement, and you should submit such request to the Chief of Naval Personnel if you so desire to exercise your legal right.

The stamped envelope forwarded with your letter is returned herewith.

Refs: (a) Your letter of March 23rd 1948, Pers 325-PRS/rec 113392.
(b) Section 302, Serviceman's Readjustment Act of 1944.

1. By reference (b) I am entitled to a review in my case for retirement as an officer of the Naval Reserve rendered disabled by injuries and illnesses incurred as a direct result of active service during the recent war.

2. Your letter - reference (a) states I am so entitled. It further states I must so request it.

3. I request a review of my retirement case under references (a) and (b).

4. Prior to my entrance on active naval service in 1941 I was in excellent health. I was rendered physically incapable by service with the navy. I was separated from the service as being of no further use to it regardless of the wordings of the orders I received. No proper diagnosis of illness or physical condition was ever made by the Navy beyond a duodenal ulcer despite my complete inability to perform any part of my naval duties. I was informed by the Naval Hospital at Oak Knoll that I was recommended for retirement by their board on Sept. 10, 1945, a fact at variance with reference (a). I was not restored to active duty or any part of active duty on Dec. 6, 1945 but was only so ordered as a subterfuge to enable my release from service. I was offered no further hospitalization by the Navy. I spent the ensuing year in civilian hospitals at my own expense. I am without income or means of support and have been rendered an invalid by my naval service. All my disabilities are service connected. I could perform no part of my duty as a naval officer. I cannot follow my profession or earn my living as a civilian. I owe my present useless condition to my service as a naval officer, and I look to the United States Navy to make proper and adequate recompense in accordance with the laws of Congress, customs and regulations of service and the honor of government.

RECORD OF PROCEEDINGS
OF THE
NAVAL MEDICAL SURVEY REVIEW BOARD
CONVENED AT THE
NAVY DEPARTMENT
BY ORDER OF
THE SECRETARY OF THE NAVY

(49)

To review the release from active service of Lieutenant LaPayette Ronald Hubbard, U. S. Naval Reserve (Inactive), without pay, for physical disability pursuant to the decision of a board of medical survey.

June 11, 1948

50 Hubbard

Navy Department
Washington, D. C.
Friday, June 11, 1948

The Board met at 1:00 p.m.

Present:

Captain William F. E. Loftin, Medical Corps, U. S. Navy, President;
Captain Howard K. Sessions, Medical Corps, U. S. Navy, Member;
Commander John A. Moreno, U. S. Navy, Member;
Commander Reginald R. Rambo, Medical Corps, U. S. Navy, Member;
Lieutenant Colonel Deryle N. Seely, U. S. Marine Corps, Member; and
Lieutenant (jg) Charles A. Carroll, Medical Service Corps, U. S. Navy,
Recorder.

The reporter, Julia Prosnick, and Mr. Charles E. Weickhardt of the Veterans of Foreign Wars organization, representative for the petitioner, Lieutenant LaFayette Ronald Hubbard, U. S. Naval Reserve (Inactive), entered.

The precept, copy prefixed hereto, was read.

By statement over his written signature in the petition, copy appended marked Exhibit 1(1) and 1(2), the petitioner indicated that he did not desire to appear before the Board in person and designated a representative of the above-named organization to appear in his behalf.

The following was read: A letter, dated May 19, 1948, signed by Otto C. Richter, with attached copy of an undated letter, signed by G. J. Walsh, copy appended marked Exhibit 2(1), 2(2), 2(3) and 2(4).

President of the Board:

This is the case of Lieutenant LaFayette Ronald Hubbard, which has been certified to this Board by the Chief of the Bureau of Naval Personnel. We have carefully reviewed the medical and service records and are now ready for any additional statement or evidence you may wish to present.

Petitioner's representative:

Counsel has no additional evidence to offer in this case. I would like to call your attention to the fact that the only inference to this so-called duodenal ulcer was confirmed in September of 1945. There is nothing indicating that Mr. Hubbard has been in a hospital recently, and it is my opinion that before this Board takes any definite action one way or another it would be acting in the best interest, not only of the applicant but of the service, to find out just exactly what his present condition is. I would recommend that the Board exercise its prerogative to authorize his admittance to a naval hospital for appropriate studies. That is all I have to offer in this case.

192.1
(5) Hubbard

Petitioner's representative questioned by a member of the Board:

1. Q. It is noted that a statement accompanying Mr. Hubbard's petition, copy appended marked Exhibit 1(2), states that he spent the ensuing year in a civilian hospital at his own expense. It is presumed that he means immediately following his release. Has he furnished you with any evidence of such hospitalization?

A. He has not. All that I have is an outline of an examination conducted by the Veterans Administration, showing the various ratings with the dates, copy appended marked Exhibit 2(1), 2(2), 2(3), and 2(4), but there is nothing showing that the Veterans Administration actually hospitalized him. I don't know and couldn't find in the record that any such information is available to the Board. For instance, on February 13, 1946, the Veterans Administration received from him an application for compensation ^{based} on the following: Duodenal ulcer; pains in side; headaches; eyes; rheumatism (Reiters Disease); left knee sprain; conjunctivitis, active; arthritis, right hip and shoulder; recurrent malaria (see Exhibit 2(2)). On February 12, 1947, the Veterans Administration assigned the following ratings based on two Veterans Administration examinations and a letter from Dr. Walsh: Ten per cent. rating from February 17, 1946, for duodenal ulcer; ten per cent. rating from February 17, 1946, for bursitis, calcified, right shoulder; ten per cent. from February 17, 1946 until December 10, 1947; and a twenty per cent. rating from December 12, 1947 for right hip, dorsal spine, and recurrent myositis. Then they rerated him and from February 17, 1947 to December 10, 1947 gave a combined rating of thirty per cent., and forty per cent. from December 12, 1947 (see Exhibit 2(3)). The whole thing as it stands today amounts to a forty per cent. combined rating, which he is receiving on his various disabilities that the Veterans Administration presumably found to be of service origin. To my mind, gentlemen, the Navy doesn't have sufficient evidence or information that the duodenal ulcer is disabling for the performance of naval duty. 206

I cannot offer anything else, gentlemen. I am merely interested in this applicant receiving the benefit of the doubt.

The petitioner's representative desired to make no further statement.

No member of the Board desired to question further the petitioner's representative.

All persons not members of the Board were excused from further attendance.

The Board is of the opinion that the defect for which the petitioner was medically surveyed, namely, ulcer, duodenum, is not the result of his own misconduct, was incurred in the line of duty, did not exist prior to his appointment as an officer in the U. S. Naval Reserve, but that this condition is usually remediable and does not permanently disqualify the petitioner for useful active duty in the naval service.

The Board, therefore, recommends that the petitioner be not authorized to appear before a naval retiring board.

June 21, 1948

To: THE SECRETARY OF NAVY

Subject: Review by the Retirement Advisory Board - request for.

Ref: Letter from the president of the Naval Medical Survey
Review Board dated June 14, 1948; EXOS:NMSRB:WFEL:CAC:jmp.

1. I request that the decision of the Naval Medical Survey
Review Board contained in the above reference be reviewed
by the Retirement Advisory Board.

2. The Naval Medical Survey Review Board, meeting on June 11,
1948, repeated the retirement board decision of 1945. This
decision was made without reference to 30% of my present
service connected disability and dealt only with 10% of
said disability. The more serious portion of my disability
was not a part of my health record when the 1945 decision was
made but was only copied into my health record completely
shortly before my release from service and was repeated
by further examination in my separation center medical
examination. This present Naval Medical Survey Review Board
had again based its entire findings on the 1945 submission
which was incomplete.

3. The Veteran's Administration has awarded me 40% disability
of which the subject of the Naval Medical Survey Review Board
is only 10%.

4. All papers, copies of my health record, proper forms
for new hearing and a copy of the Veteran's Administration
letter have already been forwarded to the Navy Department
and were presumably last in the hands of the Naval Medical
Survey Review Board on June 11, 1948.

5. In view of my present disability, my hope is that
cognizance will be taken of the actual records and conditions
of this case and that retirement can be effected.

22 NOV 1948

1. Subject officer entered this hospital on the 13th of October for complete physical examination to determine his present physical condition in accordance with authority contained in reference (a).
2. Upon admission Lt. Hubbard complained of chronic inflammation of both eyes with photophobia and lacrimation; pain and soreness of the right shoulder, spine, right hip and both ankles; and indigestion associated with periodic attacks of epigastric pain. These symptoms have been present more or less continually since his release from active duty December 5, 1945. Prior to separation he had been hospitalized for seven months with a diagnosis of duodenal ulcer and on September 10, 1945 a Board of Medical Survey found him unfit for service and recommended his appearance before a Naval Retiring Board. This recommendation was disapproved by the Chief of the Bureau of Medicine and Surgery and he was subsequently found physically and dentally qualified for release to inactive duty.
3. The routine physical examination revealed the presence of a chronic bilateral conjunctivitis of an allergic type, a compound myopic astigmatism with uncorrected visual acuity of 6/20 in each eye, some tenderness to deep palpation in the upper mid-abdomen and slight limitation of motion at the right shoulder joint. Routine blood and urine examinations were within normal limits. Special examinations of the teeth, nose, throat and ears revealed no essential deviations from the normal. X-ray examination showed normal lung fields, heart and mediastinal structures.

(56) Hubbard

Film and fluoroscopic examination of the upper gastrointestinal tract indicated the presence of a tender duodenal cap which was long, defective, and which showed an inconstant crater. Films of the various joints throughout the body disclosed the presence of soft tissue calcification in the region of the insertion of the supraspinatus muscle of the right shoulder and moderate bony productive changes involving the bodies of the mid-dorsal spine. Very minimal changes of this nature were seen involving the lumbar vertebral bodies. All other joints appeared normal.

4. From a review of the medical record together with the present findings it has been concluded that Lt. Hubbard has an active chronic duodenal ulcer, a mild to moderate conjunctivitis of an allergic type, minimal to moderate osteo-arthritic changes of the dorsal and lumbar spine, and a chronic bursitis of the right shoulder with calcium deposits in or near the tendinous insertion of the supraspinatus muscle. It is considered most likely that these conditions arose while this officer was serving in an active duty status and it is believed that he is unfit for any duty at the present time but that these defects are not necessarily permanent.

MEMORANDUM

To: The President, The Retirement Advisory Board.

1. It appears probable that the press of other duties during the month of December may prevent your attendance at hearings of the Retirement Advisory Board. Accordingly, at your discretion, I desire that you consider that the precept for the Board is temporarily modified to the extent that you may authorize hearings by the Board in your absence or the absence of any member officially absent so long as a majority of the members are present and so long as at least one medical officer is present. This temporary modification of precept is made in the interest of permitting processing of cases without undue delay.

EXOS:RAB:LPH:gl-531

16 December 1948

From: Retirement Advisory Board.
To: Secretary of the Navy.
Subject: Lieutenant LaFayette R. HUBBARD, D, U.S. Naval Reserve,
113392, (Inactive),
Physical fitness - proceedings pertaining to retirement.

1. The Retirement Advisory Board met this date pursuant to the order of the Secretary of the Navy, certified copy of the precept dated 11 April 1947 and the modifications thereof dated 29 July 1947 and 7 July 1948, attached hereto, four members present, to consider the case of the subject-named officer, particularly the record of proceedings of the Naval Medical Survey Review Board dated 11 June 1948, as requested in his letter addressed to the Secretary of the Navy via the Chief of Naval Personnel and referred to this Board.

2. The opinion and recommendation of the Naval Medical Survey Review Board convened at the Navy Department, Washington, D.C., on 11 June 1948, in the case of subject-named officer are as follows:

"The Board is of the opinion that the defect for which the petitioner was medically surveyed, namely, ulcer, duodenum, is not the result of his own misconduct, was incurred in the line of duty, did not exist prior to his appointment as an officer in the U.S. Naval Reserve, but that this condition is usually remediable and does not permanently disqualify the petitioner for useful active duty in the naval service.

"The Board, therefore, recommends that the petitioner be not authorized to appear before a naval retiring board."

The Retirement Advisory Board notes that the Naval Medical Survey Review Board proceedings, now under review, establishes that three (3) medical officers sat in the hearing. The legality of such a Board composed of more than two (2) medical officers, has been challenged in an earlier case and that objection has been referred to the Judge Advocate General of the Navy for ruling. In the absence of objection by the petitioner, Lieutenant HUBBARD, or by his representative in these proceedings, Dr. KINCAID, this Board decided to review the record of the Naval Medical Survey Review Board proceedings at issue, without prejudice based upon the possible ruling that the Board was not legally constituted.

Lieutenant LaFayette R. HUBBARD, D, U.S. Naval Reserve, 113392, (Inactive)

KINCAID, Medical Consultant, Veterans of Foreign Wars of the United States, Defense Building, 1026 Seventeenth Street, N.W., Washington 6, D.C., before this board on 14 December 1948 in the absence of Lieutenant HUBBARD, and the report of special medical examination by the Naval Hospital, St. Albans, New York, dated 19 November 1948, the Retirement Advisory Board recommends that the opinion and recommendation of the Naval Medical Survey Review Board dated 11 June 1948 be disapproved and that, Lieutenant Hubbard be authorized to appear before a naval retiring board.

RECORD OF PROCEEDINGS OF THE NAVAL MEDICAL SURVEY REVIEW BOARD

Convened at

The Navy Department, Washington, D. C., 11 June 1948

In the case of

Lieutenant LaFayette R. Hubbard, U. S. Naval Reserve

NAVY DEPARTMENT
Office of the Judge Advocate General

2 FEB 1949

Respectfully submitted.

The opinion and recommendation of the Board in this case are as follows:

"The Board is of the opinion that the defect for which the petitioner was medically surveyed, namely, ulcer, duodenum, is not the result of his own misconduct, was incurred in the line of duty, did not exist prior to his appointment as an officer in the U. S. Naval Reserve, but that this condition is usually remediable and does not permanently disqualify the petitioner for useful active duty in the naval service.

"The Board, therefore, recommends that the petitioner be not authorized to appear before a naval retiring board."

The record was forwarded to this office by the Chief of the Bureau of Medicine and Surgery and the Chief of Naval Personnel with the recommendation that the opinion and recommendation of the Naval Medical Survey Review Board be approved.

The record was referred to the Retirement Advisory Board and after a thorough review of the record and careful consideration of the case, the Retirement Advisory Board recommended that the opinion and recommendation of the Naval Medical Survey Review Board be disapproved, and that Lieutenant LaFayette R. Hubbard, U. S. Naval Reserve, be authorized to appear before a naval retiring board.

In reviewing the record of proceedings of the Naval Medical Survey Review Board in this case, it is noted that three officers of the Medical Corps were present when this board convened, were sworn and signed the record of proceedings; whereas, in conformity with 38 U. S. Code 693i(a), paragraph 8 of the precept convening this board, JAG:I:LHCJ:mhw, signed by the Acting Secretary of the Navy on 8 March 1948, states as follows:

"8. Not more than five members, two of whom shall be officers of the Medical Corps, shall act in any one case."

In view of the above, it is my opinion that the proceedings of the Naval Medical Survey Review Board in this case are not legal; accordingly, it is recommended that the proceedings, opinion, and recommendation thereof be disapproved.

NAVY DEPARTMENT

Office of the Judge Advocate General

17 MAY 1950

The record of proceedings of the Physical Evaluation Board and the action of the Physical Review Council thereon in the case of Lieutenant LaFayette R. Hubbard, U. S. Naval Reserve, were transmitted to the Secretary of the Navy for his action. On 12 MAY 1950, the Secretary of the Navy approved the proceedings and recommended finding, as concurred in by the Physical Review Council, of the Physical Evaluation Board in this case and determined that Lieutenant LaFayette R. Hubbard, U. S. Naval Reserve, was fit to perform the duties of his rank as of the date he was released from active duty.

Subj: Resignation - submission of.

1. I desire to resign my commission as lieutenant senior grade in the United States Naval Reserve as of this date.

2. Since the latter part of my active service in the war was served in a hospital, under treatment for nine months and since I have been before survey boards and the retiring board, I do not believe I could further serve in event of further emergency. Retirement was not granted but I am still considered to be 50% disabled by the Veteran's Administration.

3. As a writer, I sometimes must write on technical subjects and while these have no bearing on naval matters or government security of any kind I would feel much freer were I not a commissioned officers in the naval reserve.

4. In 1948 I tendered a resignation which was answered with a request from the secretary that I consider the matter again. I have duly considered this action and discover that I still find it expedient to resign.

5. As I would not be of use in the event of war, as I have taken no part in post war naval activities, it is certain that my continued commissioned status is of no benefit to the navy. It is therefore respectfully requested and urged that this resignation be accepted.

Subj: Pay entry base date; establishment of

Ref: (c) P.A.S. Card from Tab 200

1. Your pay entry base date has been established as:

10 Jan 51

2. It was computed on the basis of the following service:

- () Enlisted USN () Enlisted USNR ()
- () Warrant USN () Warrant USNR () ~~Enl USNR~~
- () Commissioned USN () Commissioned USNR () ~~Enl USNR~~

3. Retain the original of this letter for your use, and keep it in your possession until the Navy or Naval Reserve registers reflects this date, which will appear in the next publication of the register. Furnish certified copies as may be necessary to verify your service for pay purposes.

By direction

The definition of Pay Entry Base Date is as follows:

- (a) The actual date of commencement when all service has been continuous.
- (b) Where broken service has been performed it is the hypothetical date upon which service would have commenced had all service been continuous. In such case, pay entry base date is determined by subtracting the total of all prior creditable service from the date of commencement of continuous naval service.
